BILLING CODE 4310-70-M

Notice of Inventory Completion of Human Remains in the Possession of the Anchorage Museum of History and Art, Anchorage, AK

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003 (d), of the completion of an inventory for Native American human remains from Little Diomed Island, Alaska, currently in the possession of the Anchorage Museum of History and Art, Anchorage, AK.

A detailed inventory and assessment has been made by members of the professional staff of the Anchorage Museum of History and Art in consultation with representatives of the Inalik Native Corporation.

Limited provenience information indicates this human remain was excavated from a cemetery on Little Diomed Island. In 1970, Ms. Helen McCullen donated the human remains to the Anchorage Museum of History and Art.

The human remains consist of one skull fragment representing one individual. No known individual was identified. No associated funerary objects are present.

The Inalik Native Corporation represents the villages of Little Diomed Island for repatriation purposes. The Inalik Native Corporation has identified the island as the traditional occupation territory for the Little Diomed Islanders since pre-contact times. There is no evidence to indicate otherwise.

Based on the above mentioned information, officials of the Anchorage Museum of History and Art have determined that, pursuant to 43 CFR 10.10 (b)(1)(i), the human remains listed above represent the physical remains of one individual of Native American ancestry. Museum officials have further determined that, pursuant to 25 U.S.C. 3001 (a)(2), there is a relationship of shared group identity which can be reasonably traced between the human remains and the Inalik Native Corporation.

This notice has been sent to officials of the Inalik Native Corporation. Representatives of any other Indian tribe or Native Alaskan village or corporation which believes itself to be culturally affiliated with the human remains should contact Patricia B. Wolf, Museum Director, Anchorage Museum of History and Art, 121 W. 7th Avenue, Anchorage, Alaska, 99501, telephone (907) 343-4326, fax (907) 343-6149 before March 4, 1996. Repatriation of

the human remains to the Inalik Native Corporation may begin after this date if no additional claimants come forward.

Dated: January 29, 1996

Veletta Canouts

Deputy Chief, Archeology and Ethnography Program

BILLING CODE 4310-70-F

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Control of the Bureau of Reclamation, Upper Colorado Regional Office, Salt Lake City, UT

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003(d), of the completion of an inventory for Native American human remains and associated funerary objects from four sites in New Mexico currently in the control of the Bureau of Reclamation, Upper Colorado Regional Office, Salt Lake City, UT.

Under contract with the Bureau of Reclamation, a detailed inventory and assessment has been made by members of the professional staff of Southern Methodist University, where the remains and associated funerary objects were originally curated, the Museum of New Mexico, and the Utah Museum of Natural History in consultation with representatives of Nambe Pueblo. Meetings with representatives from Nambe Pueblo have been held at Nambe Pueblo on three occasions during 1994-95, in addition to many phone conversations during this period.

During 1973-75, the National Park Service was contracting for the Bureau of Reclamation, who planned to build a dam and reservoir at Nambe Falls on tribal lands owned by Nambe Pueblo. Southern Methodist University, under contract with the National Park Service, Southwest Cultural Resource Center, Santa Fe, Contract #CX 700030194, conducted data recovery investigations at four sites around Nambe Falls under the authority of the National Historic Preservation Act of 1966. Under agreement with the National Park Service, the collections resulting from this work were accessioned by Southern Methodist University. In 1995, in consultation with representatives of Nambe Pueblo, the Bureau of Reclamation deaccessioned the collections from Southern Methodist University and transferred them to the Museum of New Mexico.
